Dear Miss G.,

Also in mail I didn't get to until after writing you is a column of a week ago by the right-winger William F. Buckey in which he quotes an interview with Chou by Julio Scherer Garcia of Excelsior.

The friend who sent this to me and I would both appreciate a copy if this presents no serious problem to you. And if Excelsior had it translated into English or if another other English translation is available, that also would be of interest.

B quotes S as quoting Chou as saying "the truth of the assassination of President Kennedy has not yet been revealed".

The political comment on other matters, even as presented by Buckely, is quite provocative.

Thanks for anything you may be able to do.

Sincerely,

Jim Lesar
